## DR. ALLEN BUNCE IS URGED FOR CHANCELLOR

FRIENDS SEE IN HIM THE MAN TO SUCCEED CHANCELLOR BARROW AT UNIVERSITY.

(Atlanta Journal)

Urging upon the trustees of the University of Georgia the election of Dr. Allen H. Bunce, of Atlanta, as chancellor to succeed Chancellor David Barrow, upon the latter's retirement in June, William J. Vereen, of Moultrie, one of South Georgia's most prominent business men, has written a letter to Judge Richard B. Russell, chairman of the board of trustees, which was made public Saturday.

The suggestion that Dr. Bunce, widely known Atlanta physician, be made chancellor was first made by Dr. Scale Harris, of Birmingham, Ala., university alumnus and brother of Senator William J. Harris, Mr. Vereen pointed out.

"Georgia would be most fortunate to have as chancellor at her university a man of such distinguished attainments as Dr. Bunce," Dr. Harris wrote Judge Russell. "Dr. Bunce has made an unusual success in medicine. As the executive officer of the Georgia State Medical association and as editor of the Georgia State Medical Journal for many years, Dr. Bunce has done much for the advancement of medicine in the south and in many other ways has demonstrated his qualities as a leader."

This recommendation of Dr. Harris was seconded by Mr. Vereen in his letter to Judge Russell. He added:

"Aside from the general fitness of Dr. Bunce for the chancellorship, there are many reasons why a physician should be at the head of the educational institution.

"The physical development and the personal hygiene of young men and women are of equal importance with educating their minds. A physician with a broad general education to which has been added years of study of the human body should be fitted admirably for the duties of the chief executive of a university."

Mr. Vereen then points out that Dr. Ray L. Wilbur, a physician, has made a notable record as the directing head of Leland-Stanford university; Dr. J. M. T. Finney was offered the appointment as president of Princeton university on the resignation of the late Woodrow Wilson; and that Dr. W. C. Corgias also was offered the chancellorship of the University of Alabama, but that he felt his duties as surgeon-general of the army demanded his attention and he was forced to decline the offer.

"Dr. Bunce is an A. B. graduate of the University of Georgia, his devotion to his alma mater is well known, and perhaps he would make the financial sacrifice to serve his state, if he should be tendered the chancellorship," Mr. Vereen continued. "Feeling the same interest in the success of the university as when a student there in the 90's, I would like to add an endorsement of Dr. Bunce for chancellor."

"As a citizen of Georgia I am deeply interested in the future of the university. We are all proud of its past, and all Georgia is anxious that this great institution carry on and serve the interests of the state to the fullest extent. The selection of the next chancellor to succeed the distinguished and able Chancellor Barrow, who has resigned, is an all important factor in determining this development."

"I believe nothing better could be done to insure the development and expansion of the university than the naming of Dr. Bunce as chancellor. While he is yet a young man he has made a wonderful success of his profession. I know Dr. Bunce well, he is a man of excellent educational advantages, cultured, aggressive, a fine executive with unusual ability for organization and leadership. His youth is an asset. In my opinion, he is just the type man to inspire confidence and present the university, with its able faculty, to our people and to secure from them such assistance and cooperation as will help it to reach the greatest university it should be."

"Of course, it would be quite a sacrifice for Dr. Bunce to accept, should

## PRESIDENT DOWNS TALKS OF IMPROVED FACILITIES

The extent and variety of the improvements which must continually be made in transportation facilities to provide satisfactory service to the public are outlined in an interesting manner in a statement from L. A. Downs, president of the Central of Georgia Railway Company. Mr. Downs says that during the past five years the Central of Georgia has invested nearly thirteen million dollars in road and equipment and that the expenditures for this purpose amount to four and a quarter million dollars in 1924.

Among the important improvements to the transportation plant of the Central during the past year he lists the re-laying of 147 miles of track with heavier rail, ballasting of 92 miles of track and the renewal of ballast on 48 miles of track.

The industrial prosperity of Central of Georgia territory is indicated by the construction of 84 new industrial tracks and in addition to this the railroad installed 24 passing tracks and built 8 miles of new line. During the past year the Central renewed more than half million cross-ties, replaced many pile and timber trestles with permanent concrete bridges, installed 14 miles of telephone line, put in signal bells at 9 highway grade crossings, strengthened 8 bridges, constructed three new steel and concrete bridges and started work on concrete viaduct and two steel bridges. It also built a new coach and dining shop at Savannah and a new store and oil house at Columbus.

The year also witnessed the commencement of the largest single project of its kind ever undertaken by the Central of Georgia—the revision of line and grades, elimination of grade crossings and curves on the Birmingham-Columbus line. This work will be completed in 1925.

Mr. Downs points out that these increased facilities require capital which must be in the main borrowed, and says that the public realizes as never before the need of a policy that will permit the railroad to establish sound credit so that adequate transportation for the future may be provided.

## POULTRY EXPERT TO BE IN COUNTY NEXT WEEK

W. C. McCoy, poultry expert, will be with Bulloch county farmers Tuesday and Wednesday, May 19th and 20th. At the meetings this time Mr. McCoy will take up culling and will cull the flock of hens at each place. There are many flocks of poultry in the county which could be made to pay if a definite system of culling was practiced. There is a practical method which can be followed by the average farmer, and at these meetings Mr. McCoy will not only outline the method but will also put it into practice by culling out the poor producers as well as those that are quit laying. Every flock contains some very poor producers, no matter how good the breeding may have been, and it is very difficult to make your flock pay unless you practice culling.

The schedule of meetings will be as follows:

May 19th, 10 a. m., Waley Lee's place; 11:30 a. m., Lewis Akins' place, near Middle Ground school; 2 p. m., L. G. Basket place, near Tysoe Grove school; 4 p. m., W. H. Smith's place, near Bird school; 8:30 p. m., Statesboro, court house.

May 20th, 9 a. m., Register, C. A. Warnock's place; 1 p. m., K. H. Harville's place; 4 p. m., Brooks Lee's place, near Pretoria school.

## BROOKLET WAS WINNER AT THURSDAY'S CONTEST

In last week's issue in the report of the game of baseball played that evening between Statesboro and Brooklet, the score was given as 0-0. These figures were put in type before the game ended with the intention of giving the correct figures at the close of the game. However, the game was so long drawn out that the final score was not learned until after the paper had gone to press with the blank figures.

The score was 13-1 in favor of Brooklet at the end of an 8-inning game. Incidentally, he will have a souvenir that he and his children should treasure, and that in a few years should be worth much more than the small amount that he paid for it.

The distribution of these coins will be begun in Georgia in the near future, and the officers of the Stone Mountain Monumental Association have established a district office in Savannah in the Board of Trade building to perfect an organization to distribute them through the cities in the various cities and towns. The Savannah district embraces fifteen counties.

Because of the leading part played by the southeastern part of the State in the foundation of Georgia, and its patriotic record in the Civil War, interest is very keen not only in the coins, but in the priceless monument to be erected through the sale thereof, and it is believed that the Savannah district will oversubscribe its quota.

## B. Y. P. U. HOLDS INTERESTING MEETING

REGINAL CONFERENCE COMES TO END AFTER TWO DAYS PROGRAM.

The fifth annual convention of the Southeastern region of the Baptist Young People's Union of Georgia came to a close in Statesboro Friday evening after a two day session filled with helpful features.

The first program was that of Thursday afternoon, when Channing P. Hayes of Brewton-Parker Institute, Mt. Vernon, made the keynote address, taking for his theme Ecclesiastes 9:10: "Whatsoever thy hand findeth to do, do it with thy might." Mr. Hayes called upon young Christians to seek to draw closer to the Master in all their work, and declared that what young people's organizations needed was not so much "pep" and "punch" but rather "prayer, power and penitence."

Rev. David Nicholson of Claxton made a stirring appeal to all young people to crown the Christ the king of their lives. His speech followed the ode struck by Mr. Hayes.

The work of individuals within throughout the region was reported by the representatives in one-minute talks at this service. Their reports showed that a great body of young people all over the Southeastern section of Georgia is vitally interested in kingdom affairs, and that they are striving to bring about a true spirit of Christianity by preparing themselves to carry on the work more efficiently.

Dr. Aquilla Chambliss, president of Beale Tift College, was the speaker at Thursday evening service. He gave an inspirational address on "Training for Christian Service." Dr. Chambliss held up to the assembly young people in a striking and inspiring manner that the hope of the world today is in the church of Christ. He stated that the problems upon which men are working in hope of bettering conditions the world over will find their true and only lasting solution when men and women have learned to accept Christ as their personal ruler and king, allowing Him to reign in sovereignty in their lives. His appeal was for more Christian education, together with more consecration. Telling of the amazing lack of Bible training given in the average home today, Dr. Chambliss pled for more intensive study of God's Word in the homes.

Special music was furnished by students from Brewton-Parker Institute at both the services. The orchestra and the quartette rendered several splendid numbers. The quartette sang both in the afternoon and at the evening hour. Miss Gladys Stokes of the school sang very delightfully "Ashamed of Jesus" as a solo at the night service.

Supper was served on the lawn of the First Baptist Church followed by a reception before the service.

The full program for Friday was begun with a sunrise service at the church.

## MILLION DOLLAR RAIN FALLS THROUGHOUT COUNTY

The copious rains, the first in four weeks, which fell Monday and Tuesday evenings, may easily be estimated as worth a million dollars to Bulloch county.

Cotton which had been in the ground for two or three weeks in many instances had not sprouted, and farmers were beginning to fear the loss of the planting.

Tobacco farmers were likewise beginning to feel the pinch of drought and were put to every resource to save their crops in many instances. Because of the poor stand, a few farmers had plowed up their tobacco, and the others were cultivating industriously to save their crop.

So far as the cotton crop, which is noted for drought endurance, little damage had been done to cotton that was already up. Only that in the ground which had not sufficient moisture to bring it up was giving grave concern.

The two rains which fell Monday and Tuesday evenings have changed the countenances of the farmers from a look of concern to a smile of cheer.

Jack Murphy says that one thing he can't understand is why women are trying to win the right to serve on juries when men have been dodging that privilege all their lives.

We often wonder what is woman's favorite weapon now that bobbed hair is here and they don't use hairpins any more.

A fashion expert says polka dots will be popular this summer. And Police Chief Scott Crews says he has a suspicion that poker chips will be too.

Hindenburg said he was for peace. But he said it before he got into the presidential chair.

"It has about gotten so," declares Fred Fletcher, "that a man has to walk around in front of a woman to tell whether she is sixteen or sixty."

When a city man begins to tell a farmer how to farm the son of the soil either tells him to go out in his own back yard and try it or to go somewhere else.

According to Alfred Dorman it is an awful strain on a woman's nervous system to buy a dozen oranges for 50c and then walk a few steps down the street and see better looking ones selling for 40c.

"You can hatch chickens with the aid of a hot-water bottle," says W. G. Raines, "if you want to be mean enough to beat an honest old hen out of a job."

them settle that important question of what their individual lives shall mean.

The night session came as a climax to a busy day. Following an early morning "sunrise service," led by Dr. J. P. McGraw, and the regular ten o'clock meeting of the morning, a basket dinner of huge proportions and a quality that can not be excelled was served on the church grounds. The afternoon service began at 1:30.

After special music by the delegation from Brewton-Parlier Institute, State Secretary Robert E. Connelly gave an inspiring address. He spoke on the B. Y. P. U. as an evangelistic organ, commenting on its value and power as such a part of the church. After the address of Mr. Connelly, the convention went into conference for various officers and leaders. The conference was followed by automobile rides over Statesboro and vicinity.

One of the most enjoyed features of the entertainment of the visitors was the banquet served in the dining hall of the Georgia Normal School. At this affair, good fellowship prevailed to make it a most enjoyable affair, threatened only when Sergt. Proctor of the Statesboro police, "arrested" President J. B. Brown, Edith Walker, Chairman Hayes and W. A. Womack. After being released Mr. Hayes won the joke telling contest, and was given a toy pistol as a prize. In presenting the prize, "Pete" Donaldson explained that the reason why a pistol was given was that while Hayes got by with his joke upon this occasion, it was so old that the next time it was told he was likely to be assaulted and the pistol was for his protection. Miss Gladys Sikes and Paul Vaughan, by singing, and Miss Mary Lou Gates by her readings, and the Statesboro orchestra by its playing added materially to the pleasure of the guests. The Normal School is due much credit for staging the enjoyable affair.

At the night session, the time and place committee reported that they had not been able to reach a decision as to the next convention, and asked that more time be given them, and that they be allowed to make their report through the pages of the Christian Index. Such permission was granted. The committee on awards granted the banners for the most efficient work during the past year to the following unions: Senior banner to the Claxton Senior B. Y. P. U.; intermediate banner to the Valdosta Intermediate Union, and the junior banner to the Wide-Awake Union of the Statesboro church.

The delegates and guests left with much praise for the cordiality and hospitality of Statesboro. J. B. Brown, president of the Region, stated from the platform that the entertainment offered at this convention would have done credit to any state convention.

### COUNTY SCHOOL NEWS

In the schools of the county we use approximately one hundred teachers. We will have applications from about five hundred teachers at rate they are coming in now. It will be a matter of impossibility to give all the teachers of the county employment. We can use only so many, and when that number has been selected we have to stop. Some of our teachers will be disappointed regardless of our efforts to help them secure employment. If you get a good offer, do not refuse to accept in the hope that you may have something better later. Later there will be no job open at all for you.

The spirit of Register in regard to a better schooling facilities for the youth of that enterprising community is spreading all over the county. On the 28th of April, the Register Consolidated School District voted a bond issue of \$25,000 with which to build an extra house and equip it and to remodel the old school house into a good brick building, that they may have a fully accredited high school for their children at home. They will have an enrollment of approximately four hundred children to begin with and they will grow each year by taking on more territory and as result of people moving into this kind of settlement. There were 235 votes cast in this bond election, and out of this number there were 232 votes for bonds and only 3 votes against bonds.

Within two more years we should have less than twenty schools in the county. And at the present rate of consolidation we will have less than twenty. That will give every boy and girl an equal chance at a high school education. And will mean better training and more rapid advancement of our pupils in every way.

Most of the schools of the county have closed. Many of the schools had old fashioned school closings that were largely attended. Appropriate programs were rendered at these closing that were entertaining.

A new consolidation will be effected with the Arcola school as the site, being made of the Holly Grove and Hendrix in part. These citizens propose to properly equip their old building.

THE STATESBORO SANITARIUM

The Statesboro sanitarium, I must confess, is the place where I was blessed; With good nurses and doctors, too, With my troubles they brought me through.

The nurses there are seven in all; The head one can't be beat and that's Miss Wally; There's Wallace, Brannen and Bailey. Who do their duty night and daily. Also Record, Perry and Durden—Their task to them seemed no burden. I was a patient for seventeen days; Wasn't so curious, and they like my ways.

So if a patient you do your part, And the nurses will be good from the start; The Statesboro sanitarium, and that's no guess, Is the place for sick people to get well and rest. If for operation, everything is in rotation; If for pain and disease, Go to the Statesboro sanitarium for relief and ease.

To ignore a man who is trading the road as you whiz by in your auto, looks on its face to be a pretty mean custom, and yet in these days of gun-carrying and loose ideas about other people's property rights it is best to remember that "self-preservation is nature's first law."

In a Georgia county two young men are under sentence of death and their associate, who made a confession and contributed to their conviction, has been given a life sentence for the murder of Prof. Wright, head of the Putnam county public schools, when he gave them a ride in his car on the highway. Within two weeks in the state of Ohio, lately one man who offered a stanger a ride was shot and killed and another shot, robbed and left along the road in a dying condition. Both were the victims of their own generosity.

It would have to be something awful shocking to make the modern girl blush so it would show through the paint.

## THIS SOUNDS GOOD

We live in a land that produces more and better food than any other nation in the world, and yet the federal reserve bank of the U. S. has just issued a report showing that we also have more. On April 1 last 893 savings banks in various parts of the country reported an increase in savings of \$300,000,000 over a year ago. Depositors in these banks saved \$47,000,000 more in April 1924 than they saved in April 1923. These banks are not all in large cities. Some are in towns no larger than our own and the same thing that prevails with them will hold good with other banking and savings institutions of the nation. This looks like the hardest rap of all at the man who argues that times are not getting better and our people more prosperous. It also offers a lesson to those who are still complaining—and that is that if they haven't got a little nest-egg saved up in bank it is because they have neglected to take a dollar or two around to the bank to start one.

## SHOULD BE STOPPED

Authorities in many sections are worried over what seems to be a flood of cheap, suggestive reading matter that is finding its way into the hands of boys and girls of school age, and that is destined to have a serious effect upon them from a moral standpoint. So-called magazines that publish daring pictures and filthy stories are on sale on thousands of newsstands, and can easily be secured by mail. Some that have been forbidden the mails manage to find their way into the hands of the youth of this country through other means of transportation. The government is doing what it can to prohibit the circulation of this trash, but seemingly has not been able to cope with the evil.

We feel quite sure that our boys and girls have not reached the point where they consider the reading of these notoriously dirty publications a necessary part of their education. But there is no means of knowing how soon the habit will strike the youth of this community, or to what extent it will be encouraged by them. There is but one safeguard, and the teachers themselves form that. If they will keep a watchful eye for questionable magazines, periodicals and postcards and suppress their circulation the minute they find them to be vile, much harm can be prevented. And it might also be well for parents to investigate what type of reading matter their children are given to reading in their leisure hours.

Give, who begin painting at twelve usually need a "whitewash" at twenty.

If a man neglects his family but to go to his job, people say he has a kind heart.

If you really believe in fairy stories, buy some stock that is guaranteed to yield twenty percent.

## A BENEFACTOR DIES

It was in 1894 that Elwood Haynes built and drove through the streets of an Indiana town what is said to have been the first gasoline auto produced in America. "Get the dangled thing off the road!" they yelled at him as they struggled to hold their frightened horses. Haynes probably laughed at the competition, for he could doubtless see ahead to the years when such remarks would never again be heard. And all that he foresaw came true before his death just a few weeks ago. He lived to see the day when there is an auto for every two families in the country and when at least one out of every 15 workers finds employment in connection with the manufacture, sale, repair or operation of autos. Henry Ford popularized the automobile, but it was Elwood Haynes who first gave it to the world, a fact school teachers should not lose sight of when they are teaching our boys and girls the good things that men have done for the world.

What has become of the old-fashioned travelling salesman who never tackled a hard customer until he had had a drink or two?

A lot of fat women won't care to go to Heaven if they're forced to wear the long flowing robes supposed to be stylish with the angels.

Young people don't pay as much attention to old folks as they once did because it's so hard to find anyone who will admit that they're old.

Another thing that tends to make anarchists is bringing pigs to market in an auto past the man who never gets to ride in one only at a funeral.

PLANS PERFECTING FOR  
WILSON COLLEGE MEET

There will be held in Savannah at the Hotel Savannah at 12:30 on Friday, May 15, a luncheon conference for the entire South Georgia territory upon the matter of the Woodrow Wilson Memorial College project. Following an enthusiastic state-and-national meeting in Atlanta last week the Savannah meeting, immediately under the auspices of the First district, is expected to outline the Atlanta meeting, since the project was conceived in the South Georgia, born at Valdosta, and is offered to the state and nation by a section of the state in which the war President, a citizen of Georgia, received a large part of his education and began his career as a man. District chairman from several South Georgia districts, county chairman from fifty or more counties, and others interested in the great memorial which will at once be a fitting tribute to a world figure and the means of telling the world that Georgia leads in the finest things are expected to be present. The program is being perfected with Pleasant A. Stovall, state chairman; A. J. Strickland of Valdosta, chairman of the board of trustees of the college; Anton Wright of Savannah, Judge P. W. Meldrum of Savannah, and Dr. Ashby Jones of Atlanta, among the several speakers. The utmost interest has been manifested in the approaching Savannah meeting and telegrams have been coming in accepting the invitation to be present.

ANDERSON TO BE SPEAKER  
AT NORMAL COMMENCEMENT

Hon. W. T. Anderson, of Macon, will be commencement speaker at the Normal School on Tuesday evening, June 1st. The commencement sermon will be preached by Rev. W. T. Granade on Sunday preceding.

## OH! MY BACK!

Acting Backs Make Life Miserable For Many Statesboro People. It isn't right to suffer day in and day out with dull, unceasing backache. Or be utterly miserable with sharp pains of pain whenever you stoop or lift. But chances are you will suffer these tormenting aches and pains as long as your weakened kidneys are neglected. You may have headaches, too, spells of dizziness and urinary disorders. Then use Doan's Pills—a stimulant diuretic to the kidneys. Experiences of Statesboro people prove the merit of Doan's Pills. Mrs. A. T. Peak, 110 W. Main St., says: "I was ailing with lame back using Doan's Pills, I was rid of the complaint."

Price 60c. at all dealers. Don't simply ask for a kidney remedy—get Doan's Pills—the same that Mrs. Peak had. Foster-Milburn Co., Buffalo, N. Y. (10)

## What are the Protestant Churches Coming to?

ARE YOU A PRTEESTANT CHURCH MEMBER? Are you aware of the fact that American Protestantism is fast slipping from the rocky heights of true Bible faith? Do you know that scores of theological seminaries, where your future ministers are being trained, have ruled out an infallible Bible; that thousands of ministers are preaching a man-made gospel; and that literally hundreds of thousands of church members are being swept along by this ever-rising tide of "modernism?"

Do you know that this country today is thickly dotted with churches that are mere shells of their former selves? Do you know that a general collapse of American Protestantism was actually threatening some time ago; that a mighty counter-movement has started; and that we are IN THE GREAT CRISIS right now?

We want to reach EVERYBODY that calls himself a church member—also those who do not read a church paper, and they are legion. Hence this general announcement in your secular paper. Men and women, are you in favor of retaining the Bible that your fathers believed in and that your mothers trusted in, that was their hope and stay in times of grief and sorrow, that gave them cheering visions of a heavenly rest—the rest that your liberals do not believe in because it belongs to the "supernatural" and, therefore, "unknowable"? Will you join us in saying "Whatever you do, or don't do, but HANDS OFF THE BIBLE?" Will you help save the Bible of America? Will you join in the fight for its integrity? Will you, too, modern scholarship the right to rob us of the only sure foundation upon which our feet can stand, in these shifting sands of time?

Then you are interested in the news that we are now able to convey to you—the greatest piece of news heralded for a long time. It is this, THAT A NEW REFORMATION IS COMING! There are rumblings everywhere of the approaching battle—the battle between faith and unbelief, between true religion and false science, between FUNDAMENTALISM AND LIBERALISM. And there is yet more news. It is this—that A GREAT GENERAL MAGAZINE is now being published, for all the Protestant denominations, edited by the great leaders of conservative Protestantism, which is here to keep its readers promptly informed of every development in the "New Reformation" movement, and which is blazing the way to a "new Protestantism" in America! The magazine is bigger than any denomination; it has nothing to do with this sect or that. It is interdenominational. It is here to fight, on a huge, nation-wide scale, for the sanctity of the Bible! It is here to place the Bible where our fathers placed it—far above all the thoughts, and philosophies, and imaginations, of mere men! And it is here to adore a DIVINE CHRIST in that DIVINELY INSPIRED BIBLE! That is the only Christ men and women would want for their Saviour in the hour of death; that is the only Bible they would care to rely on when the chilly waves begin to strike their feet, wear of travel.

TO KNOW WHAT IS GOING ON IN THESE MOMENTOUS TIMES, READ

## The New Reformation

A MONTHLY MAGAZINE FOR ALL THE CHURCHES,  
REPRESENTING THE NATION-WIDE MOVEMENT  
AGAINST MODERNISM AND FOR THE POSITIVE  
RECOGNITION OF THE SANCTITY OF THE SCRIPTURES.

EDITORS: JOHN CLOVER MONSMA, editor-in-chief; WILLIAM JENNINGS BRYAN, former U. S. Secretary of State; HORACE M. DUBOSE, Bishop Methodist Episcopal Church, South; LEANDER S. KEYSER, Professor Southern Divinity School; CLARENCE EDWARD MACARTNEY, Moderator Presbyterian Church, U. S. A.; MARK A. MATTHEWS, Minister of largest Presbyterian Church in the world, Seattle, Wash.; GEORGE MCCREARY PRICE, expert Geologist, of England; L. R. SCARBOROUGH, President Southwestern Baptist Seminary; JOHN ROACH STRATON, Minister Calvary Baptist Church, New York; GEORGE WHEATON TAPP, President Northern Baptist Seminary, Chicago; MARTIN LUTHER THOMAS, Minister First Presbyterian Church, San Pedro, Cal.; and numerous contributors of note.

This is not a church paper! It is unlike anything you have ever seen. It is bold, but not radical. It is fearless, but not rude. It is powerful in its true, deep, clear faith, but not bigoted. It is conservative, and yet sanely progressive.

One of the paper's greatest features is the Practical Comment on the Sunday School lessons, by the editor-in-chief, Dr. Monsma. It's unlike anything the ever published in the Sunday School line—not an exposition (you will still need your lesson helps) and yet something that will enable you to grasp the lessons and to apply them practically like never before. "Practical Comment" is written in a snappy style, reads like a story, and goes right to the heart of every lesson.

GLISSON STEVENS

An out-of-town wedding of interest to many friends in Statesboro is that of Miss Ollie Vera Glisson, daughter of Mr. and Mrs. C. Glisson of Sanford, Fla., to Dr. Ralph E. Stevens, which took place on April 22 at the First Presbyterian church in Sanford with Dr. E. Darnell Brownlee officiating.

The bride is the only daughter of Mr. and Mrs. Glisson and is a niece of Mrs. M. J. Kinard of Statesboro whom she has often visited.

Dr. Stevens is a son of Mr. and Mrs. H. R. Stevens, a well-known physician of Sanford. He has an enviable war record, receiving a citation for distinguished and exceptional gallantry. He held the rank of regional surgeon in the 305th Engineers in the Eighteenth Division. He is now a major in the Reserve of the Medical Corps and is also regimental surgeon of the 124th Infantry in the Florida National Guard. He is an active member and past surgeon of the Campbell-Lessing Post of the American Legion. He is a member of the Florida State Southern and Medical Association.

## BAXLEY IS A CENTER FOR POTATO INDUSTRY

Atlanta, Ga., May 12—Baxley, Ga., is gaining national fame as head quarters for potato slips, two million and a half of these slips having just been shipped. The plants were destined for every young growing state.

The shipment, according to officials of the A. B. and A. railroad, consisted of 600 packages, or several car loads, and they were sent either by parcel post or express.

The movement from Baxley will continue for 60 days, and the record made 1925, with an output of 70,000,000, seems likely to be broken the first month.

## ARGENTINE COTTON CROP

Washington, D. C., May 5.—The cotton crop now being picked in Argentina is estimated at 74,700 bales, the Department of Agriculture was advised today by the International Institute of Agriculture at Rome.

While this estimate is above the 68,600 bales reported for last year, the department said, it is small considering the area planted, which is estimated at 257,000 acres. The small yield is attributed to drought, leaf worm and locusts.

Some women's idea of a real helpmeet is to thread the needle for her husband when he wants to sew on a button.

There seems to be one law for the rich and one for the poor—and then about 2,000,000 more for the middle class.

If the world is really better than it used to be, then our ancestors must have been an awful bunch of toughs.

## BROADCASTING FOR EDUCATION

A two minutes talk by  
**E. V. HOLLIS, President**  
GEORGIA NORMAL SCHOOL  
STATESBORO, GEORGIA

## COMPARING "THE GOOD OLD DAYS" WITH NOW

Our memories of the past are nearly always crowned with a halo. While we remember the good, the years mellow the short-comings of the past days. We remember how thorough was the education we got and forget how narrow and how few shared in it. We forgot that the high school graduate of today has studied as wide a range of as difficult subjects as the college graduate of 1880, and that he has met even more searchingly standards for thoroughness. The following facts from the U. S. Bureau of Education statistics will help compare education throughout the United States as it really was in 1880 and in 1918:

Per cent of enrollment in attendance 1880, 62 per cent; 1916, 75 per cent.  
Number of days in the school session 1880, 130; 1916, 161.  
Per cent of population illiterate 1880, 13 per cent; 1916, 6 per cent.  
The comparison shows progress through the years regardless of whether you compare the qualifications of teachers, the children enrolled, or any other particular item. This progress has been slow but it represents real achievement, and should be recognized. The field is yet white unto harvest and the prepared laborers are few. A crying need of today is the preparation of more teachers who can labor intelligently for further educational progress.

## SIX ARE UNDER BOND TO ANSWER IN COURT

BULLOCH COUNTY MEN ARE ACCUSED OF MULTIPLE CRIMES IN SCREVEN.

Under charges of assault and battery and kidnapping six white men and a negro have been given bond in the sum of five hundred dollars in each case to answer in Screven superior court Friday morning.

The men implicated are John Clark, Jas. Clark, R. A. Clark, S. L. Bell, W. F. Floyd and K. P. Davis, white, and Roy Bailey, colored. The accusation against them is made by Ossie Raymond, colored, now living in Screven county.

All the parties were at Sheriff Mallard's office Monday night and arranged the bonds required in the kidnapping case, bond having previously been arranged in the other case. Superior court is in session in Screven county during the week and indictments were found by the grand jury Monday on the kidnapping case.

The Times reporter talked with one of the accused Tuesday morning and was informed that the answer to the accusations would be a flat denial. He stated that the negro making the accusation had at one time lived in the Hagin district, and that he had possibly had some trouble with some of the defendants. The negro, he said, had been convicted of hog stealing in Bulloch county and had served a term on the gang. For the past year he is understood to have been living in Screven county.

The first intimation which reached Bulloch county in regard to the affair was in a news item in the Sylvania Telephone of last week, which is published herewith:

"An officer of the superior court gives the Telephone the following figures with regard to the raid by six white men from Bulloch county into Screven last Friday night. These men, so he states, committed 77 offenses against the law during that night, which is probably a new record in the annals of the courts. At least in the number of violations of the law and the enormity of the space of time in which they occurred."

"The six men left Bulloch county together and came over to the place of Mrs. Annie C. Griner near Capota in this county. There they forcibly entered the house of Mr. Linton Hodges, which constituted 7 offenses of malicious mischief—for it is not thought they entered with any burglarious intent."

"It seems they were hunting a negro man, to beat him, and were guilty of robbing 7 cases on this count."

"When they reached the negro man's house they took him and his wife out and beat them, making 14 cases of assault."

"Then they took them both forcibly into Bulloch county, making 14 cases of kidnapping."

"In Bulloch county they were again guilty of assault and battery on the man and his wife—14 cases there."

"They were also guilty of riot in that county—7 cases."

"They also shot at the negro man and his wife—making 14 cases of assault with intent to murder."

"This makes 77 distinct offenses charged against them in one night—42 in Screven and 35 in Bulloch."

"The negro man was badly beaten, and the solicitor had him and his wife placed in jail in Sylvania for protection, until superior court."

As we understand it, a woman driver only wants half of the road, but she's generally slow about deciding which half she wants.

KICKLIGHTER DIES FROM INJURIES IN ACCIDENT

Remer Kicklighter, aged 29 years, died at the local sanitarium Tuesday night of injuries sustained in an automobile wreck on the highway between Claxton and Daisy Sunday afternoon.

According to information given by his parents, who accompanied him to the sanitarium here Monday, he was riding alone in a truck, going to Daisy for his wife who had been visiting her parents there. At a sharp turn in the road his car turned completely over, crushing the

young man beneath and breaking his limbs and internally injuring him. He was unconscious when persons who saw the accident reached him, and never regained consciousness before his death.

His parents are Mr. and Mrs. I. F. Kicklighter, who live in the vicinity of Groveland. Interment was at Groveland Wednesday afternoon following services from the Primitive Baptist church there.

Georgia, with merchandise exports valued at \$84,963,880, finished 1924 in fifteenth place in the list of states fighting for export markets, according to statistics just released by the Department of Commerce.

Raw cotton exports was the principal cause of Georgia's triumph of nearly \$14,000,000 over Maryland, its runner-up, in the race for a dominant position among the various states. Wisconsin was just ahead in fourteenth place with an export trade of \$89,290,895, while Maryland was in sixteenth place with an overseas export trade valued at \$71,178,310.

Other commodities which aided materially in Georgia's success were resin, amounting to \$4,939,984; spirits of turpentine, \$4,685,504; cotton cloth and apparel, \$2,750,182; and leaf tobacco, \$1,276,957. The value of the total export trade of the United States for the year 1924 was \$4,498,151,936.

Exports amounting to over \$100,000,000 for the year were obtained by eleven states of the fifty-two states and regions included in the tabulation. They were Texas with figures of \$737,218,927; New York, \$731,593,502; Pennsylvania, \$293,229,153; Illinois, \$239,314,270; California, \$234,684,210; New Jersey, \$223,921,244; Louisiana, \$222,847,224; Michigan, \$177,876,664; Virginia, \$150,198,225; Ohio, \$133,550,362; and Massachusetts, with merchandise valuations of \$114,418,430.

Minnesota, with shipments valued at \$99,880,490, was just outside of the first eleven states, while Nevada, with exports amounting to \$233,413, brought up the rear of the entire list.

This is the first time in the history of Government trade statistics, according to Dr. Julius Klein, director of the Bureau of Foreign and Domestic Commerce, under whose charge the figures were compiled, that an attempt has been made to show the relative yearly standing of the different states and regions of the Union in the never-ending struggle for foreign trade.

United trade figures gave only the part from which shipments were cleared. Inland producers, desirous of finding out what agricultural and manufactured goods came from their regions, wanted the Commerce Department to adopt some other system.

The outcome was the new compilation which is based primarily on thorough bills-of-lading, and therefore, in the case of some states reflects but a part of their total foreign trade and for others includes goods produced elsewhere. The element of seasonal fluctuation, says Director Klein, should also be considered.

SCHOOL TRUSTEES TO BE ELECTED SATURDAY, MAY 30

The patrons of all the white schools of this county are notified to elect trustees to fill the vacancies caused by expiration of commissions to those whose time is out in June this year.

Election must be held at the respective school houses Saturday, May 30th, from one to two o'clock in the afternoon.

In cases where more than one trustee is to be elected, patrons should attend to it and report along with the regular election to the county board of education that commissions may be issued on the first Tuesday in June. Please make prompt return of election so that the commissions may be issued before July board meeting.
